***Response to Arguments***

Applicant's arguments, see the paper filed on August 14, 2003, with respect to claims 1-7, 9-15, 17-23, 25-36, and 38-40 have been fully considered and are persuasive. The rejection of all pending claims has been withdrawn.

***Allowable Subject Matter***

Claims 1-7, 9-15, 17-23, 25-36, and 38-40 are allowed.

The following is an examiner's statement of reasons for allowance:

Examiner agrees with the remarks presented in the amendment filed on August 14, 2003. The prior art fails to teach or suggest a device for the measurement of multiple layer thicknesses where a sample having a plurality of layers is illuminated by multi-wavelength radiation beam, and where a spectral analyzer receives the radiation reflected from a sample and performs an orthogonal transform on the frequency spectrum created by the spectral analyzer from a reflected intensity spectrum to produce a representation of layer properties including layer thickness as recited in claims 1, 12, 20, 28, 29, and 30. Claims 2-7, 9-11, 13-15, 17-19, 21-23, 25-27, 31-36, and 38-40 are allowable by virtue of their dependency.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
